

Testimonial, Lizzie Ward: Peterborough Minigolf

"It has been a pleasure to work with UrbanCrazy on the development of our new, family-orientated minigolf course. We had spoken to other companies but they didn't really share our vision, when we met Jon and his team it was clear that they did. **Their enthusiasm for what they do is infectious and from our first meeting they made us feel more excited and engaged in the project**.

Throughout the design and construction process we had complete confidence in the guys – they were so knowledgeable and professional throughout. The final results are better than we ever imagined and we are really pleased with it."
