

## Testimonial, Paul Abrahams: North London Rear Garden

“UrbanCrazy showed flair and imagination in the design of our rear garden and miniature golf course. Throughout the design, build and landscaping process the team were polite, prompt, hard-working and professional in all they did. Their work was of the highest standard.

One of our favourite elements is the water feature they created, which we think is very attractive and particularly beautiful at dusk, with the tall rock picked out by the lights. It really is a very unique landscaped garden – thank you UrbanCrazy!”
